

Overdrive General Information

Library books are loaned through Overdrive which is a digital media collection. You will need your library card number to access this system. An Orem Library card provides access to the Orem digital collection. A Provo Library card gains access to the Provo digital collection. Titles are provided by the Utah State Library and additional books may be purchased by your individual library so selection may vary depending on the library card you use. You can browse the Overdrive Library at pioneer.utah.gov. Click on Overdrive – Audio & e-books.

When checking out library books, please remember that the library purchases each digital copy. There aren't unlimited copies so you may have to wait on a hold list until your selection is available. We can only purchase books that publishers make available to us. Please feel free to make suggestions for purchase. We will try to meet your request but many titles are not available for us to purchase.

You are allowed to check out up to 5 titles at one time with a loan period of 7, 14 or 21 days. Change the loan period from the settings tab in your account page at the Overdrive site.

Be sure to use the correct format for your device. Kindle devices use a Kindle format. Tablet Users (iPad, Kindle Fire, Nook Color & Nook Tablet, Nexus, Samsung etc) can download the Overdrive app from their device's app store and use the application to access Overdrive, browse and download e-books and audiobooks. Nook Glow Light (and older Nook) users, and Sony e-readers use Adobe e-pub formats. These downloads require the Adobe Digital Editions software. NOTE: When using a Kindle Fire or if you want to read using a Kindle app on another tablet, use a browser to access the Overdrive site. Kindle book formats are not optimized for use with the Overdrive Media Console App.

If you have no reading device, many books are available in Overdrive Read, which is a browser based reading app you can use on your computer, tablet or smart phone. When you select a title, click on borrow, then choose "Read in your Browser"; an app will open the book. On your computer screen, a menu will appear on the right. On a tablet, touching on the top third of the screen offers a menu option and you can customize your experience. Touching the cloud icon allows you to save the book to your device. Follow the instructions provided so you can bookmark and read your book offline.

If you have problems, remember that Overdrive is a platform that the Orem Library subscribes to, but we have no administrative access to the system. There will be times when we simply cannot correct problems and you will need to contact Overdrive via e-mail at celbreference@utah.gov, for customer support. The manufacturer of your device is also an excellent resource for troubleshooting problems.

Browsing and Downloading a Digital Book for eReaders or Computers

1. Go to the following website: pioneer.utah.gov. Click on Overdrive – Audio & e-books.
2. Use the “sign-in” link in the upper right hand corner of the page and type in your library and library barcode when prompted.
3. The “Account” icon gives you access to your account. You can see what you have checked out, what you have on hold and what you have placed on your wish list. Use the settings tab to change the length of your loan period.
4. The main page offers you a variety of searching options. The blue menu bar across the top of the page directs you to choices for e-books and audio books. You can also browse along the page and see the covers for new and recently returned items. E-books have a book icon in the upper right hand corner. Audio-books have a headphone icon in the upper right hand corner. Black icons indicate an available item. Grey icons indicate an item is checked out and needs to be placed on hold.
5. You can also search by author or title by using the search bar in the upper right hand corner of the page. When you choose a section for browsing, you can limit your search to “titles available now.”
6. Once you choose an item, click the borrow button. (Check the list on the right side of the page to be sure the desired format is available.) You are directed back to your account page to complete the check out. The book cover appears in your booklist. No digital reader? Choose Read (in browser) and follow the instructions found on the General Information page. To use an e-reader click download, choose your format and follow the check out instructions. Kindle format will check out using your Amazon account. YOU MUST know your Amazon account and password to complete the check-out. Nook check-out will occur through the Adobe Digital editions program that you have downloaded on your computer. The book will be downloaded to the program and then you will transfer it, via the USB cable, to your device.
7. You can return your book early. For Kindle, go to your Amazon Account, “Manage Your Content and Devices,” select the title and choose “Return Book.” For Nook using Adobe Digital Editions, open the Digital Editions program and in the library view (book shelf icon), click on the upper left hand corner of the book cover and choose, return and delete. If you don’t return your book, don’t worry. The file automatically returns to Overdrive when the loan period ends.
8. For detailed step by step instructions regarding Adobe Digital Edition and Kindle USB transfer, please visit the library website: oremlibrary.org . You will find e-book information in the drop down menu under the “e-research” tab.
